

CONTENTS

Research papers

- A flood risk assessment for the City of Chilliwack on the Fraser River, British Columbia, Canada
MATTHIAS JAKOB, KRIS HOLM, EDGAR LAZARTE AND MICHAEL CHURCH 263
- Assessment of flood management systems' flexibility with application to the Sacramento River basin, California, USA
KARA N. DIFRANCESCO AND DESIREE D. TULLOS 271
- Communicating uncertainty in flood inundation mapping: a case study
KEITH BEVEN, ROB LAMB, DAVE LEEDAL AND NEIL HUNTER 285
- Enhancing flood risk system robustness in practice: insights from two river valleys
MARJOLEIN J.P. MENS, FRANS KLIJN AND RALPH M.J. SCHIELEN 297
- The importance of domino effects in flood risk assessments: a case study from the VNK2 project
WOUTER LAMBERTUS ANTHONIE TER HORST AND RUDOLF BERNARD JONGEJAN 305
- Geomorphological and riparian vegetation responses following a low-head dam removal: a study based on literature review
SINAE KIM, YUJI TODA AND TETSURO TSUJIMOTO 315
- River water quality assessment: comparison between old and new indices in a real scenario from Italy
FEDERICA VALERIANI, LOREDANA ZINNÀ, MATTEO VITALI, VINCENZO ROMANO SPICA AND
CARMELA PROTANO 325
- Conservation of a river for biodiversity and ecosystem services: the case of the Halda – the unique river of Chittagong,
Bangladesh
HUMAYAIN KABIR, MANZOORUL KIBRIA, MOHAMMED JASHIMUDDIN AND
MOHAMMAD MOSHARRAF HOSSAIN 333
- Turbulence flow field around two eccentric circular piers in scour hole
SUBHASISH DAS AND ASIS MAZUMDAR 343
- A practical tool for selecting cost-effective combinations of phosphorus loading mitigation measures in Finnish catchments
TURO HJERPPE AND SARI VÄISÄNEN 363
- Winter discharge of coalbed methane water in the Powder River Basin, Wyoming
EDWARD W. KEMPEMA AND ROBERT ETTEMA 377
- Water for growth and development in the Ganges, Brahmaputra, and Meghna basins: an economic perspective
GOLAM RASUL 387
